V LOCKER

Stainless Steel 316

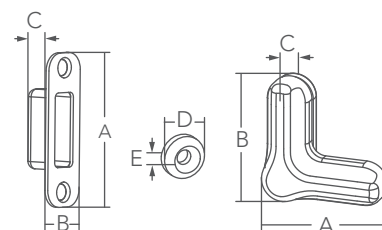

- Functions as a drawer or cabinet stop to ensure secure closure, even underway.
- Ideal for use on small cabinets and discreet storage compartments.
- Easy installation with hidden fastener design for clean appearance.
- Detent allows fixed positioning with 90° rotation.
- Plastic stopper is designed to compensate the gap between the locker and door surface, when latched.
- Striker OT-57-1001-24 is sold separately.
- Screw size M4 or #8 for V-Locker and striker.
- Screw size M3 or #6 for stopper.

INSTRUCTION

Rotate the locker 45°
for installation.
