ENHANCING BRAND VALUE

Modern McCoy Contemporary Design Hardware

Onmar handles embody a contemporary design language that aligns with the latest trends in marine aesthetics. The premium Modern McCoy hardware offers exceptional modularity, allowing for easy interchange of handles and escutcheons—ideal for updating model year specifications with minimal effort.

Take advantage of this opportunity to differentiate your boat models by offering a curated selection of shapes and finishes, all enhanced by the refined elegance of the Modern McCoy latch.

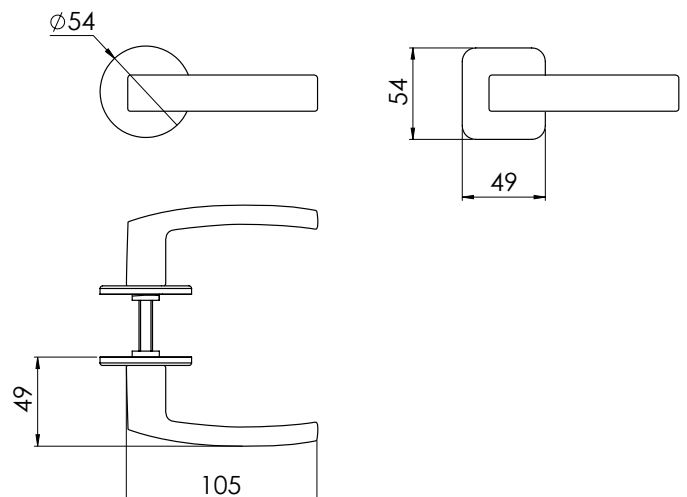

FROST

Frost embodies contemporary elegance with its crisp profile and gently rounded grip.

Designed for both style and comfort, its softened edges provide a smooth tactile experience while maintaining a bold architectural presence. Perfectly suited to modern interiors, Frost offers a refined balance of sharp lines and subtle curves—bringing sophistication and ease to every touchpoint.

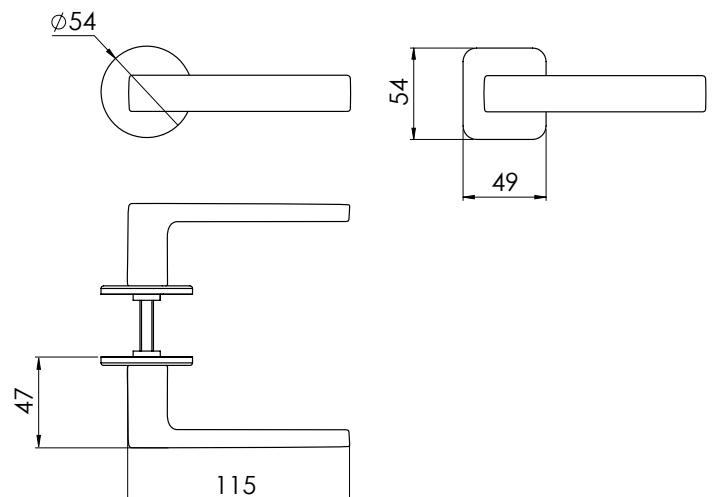

NORDIC

Bold in form and pure in purpose, the Nordic features a strictly squared, geometric design that embodies rationality and minimalism.

With its clean lines and uncompromising structure, Nordic conveys a sense of strength and durability, offering a firm, confident grip. Ideal for contemporary spaces that value clarity and function, this handle is a statement of refined essentialism—where every angle serves a purpose.

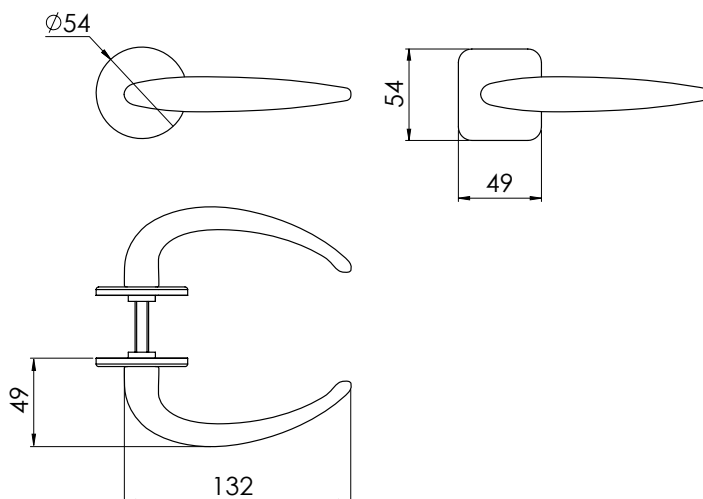

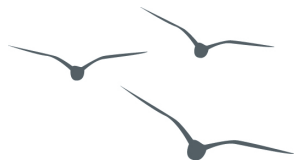

CRESCENT

Graceful and fluid, the Crescent Handle draws inspiration from the elegant form of a swan.

Its sweeping, curved silhouette offers a naturally comfortable grip, while its slim profile enhances a sense of lightness and sophistication. Designed to complement the sleek lines of fast, smooth-sailing boats, Crescent brings an elevated touch of elegance—where form flows seamlessly with function.

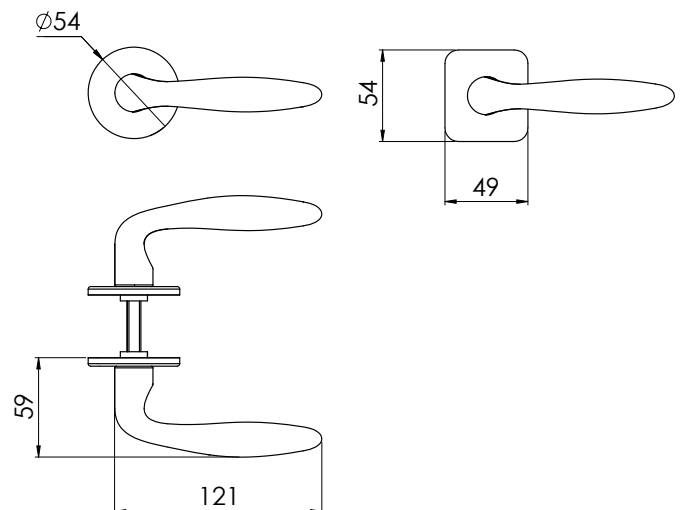

ASTRID

Astrid is featured by its charming and beautiful design that creates a delightful contact.

Shaped to mould perfectly into the curves of the hand.

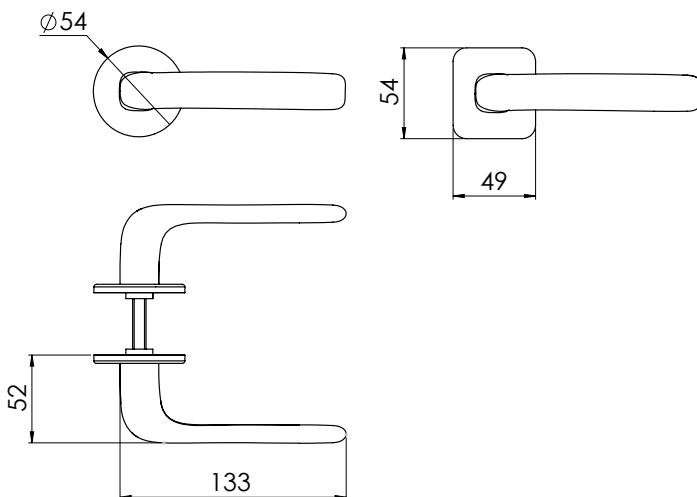

LISA

Lisa is a modern design that combines a square frame with subtle rounded details. It's created with genuine, firm and impenetrable qualities.

The rounded shape of the front and back surface is designed to impress.

ENHANCING BRAND VALUE

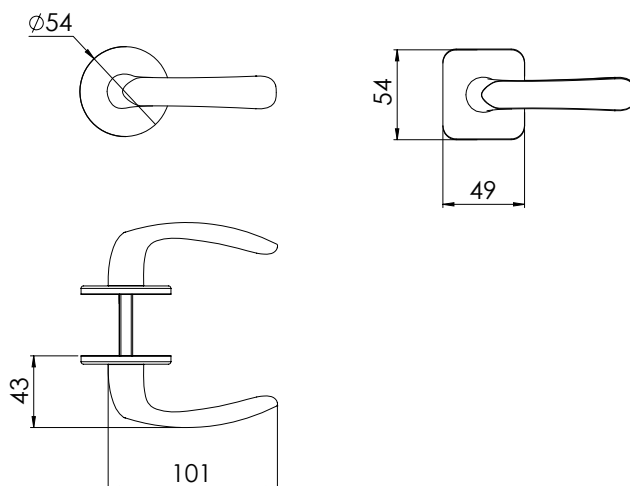

EMILY

Emily is characterized by its sleek shape where subtle curves is balanced with rounded edges.

The sharp edges provide a secure grip, while the rounded elements ensures a comfortable user experience.

onmar

ENHANCING BRAND VALUE

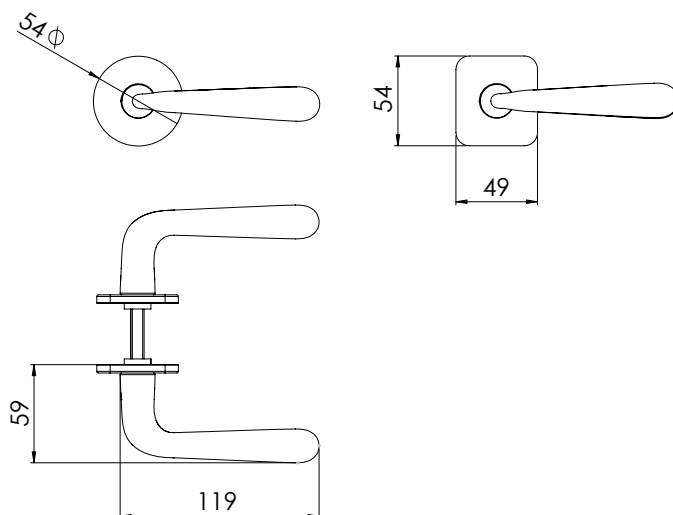

BELLA

The Bella handle takes you back to the roots of elegance.

The sharp edges provides a secure grip, while the rounded elements ensures a comfortable use. The handles shape of a falling drop is directly connected to our marine passion.

Escutcheons

Round escutcheon

An upgraded round escutcheon with a minimal radius offers a modern look and allows matching to be made with sharper edged handles.

Square escutcheon

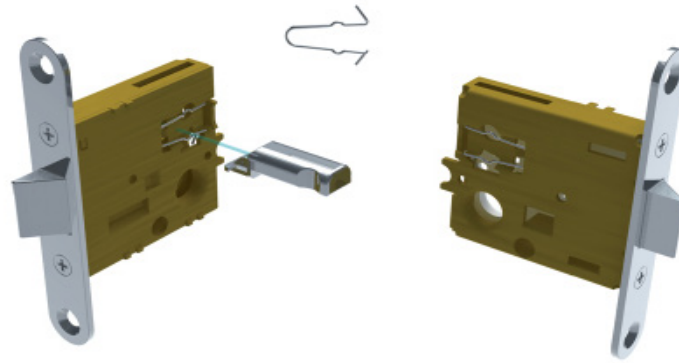

Our modern square escutcheon associates square shape with rounded corner creating a softer appearance which widens the applicable range of new handle styles.

Privacy

The stylish shape of the privacy knob has been tested to be easy to use and operate, even with long fingernails.

Privacy

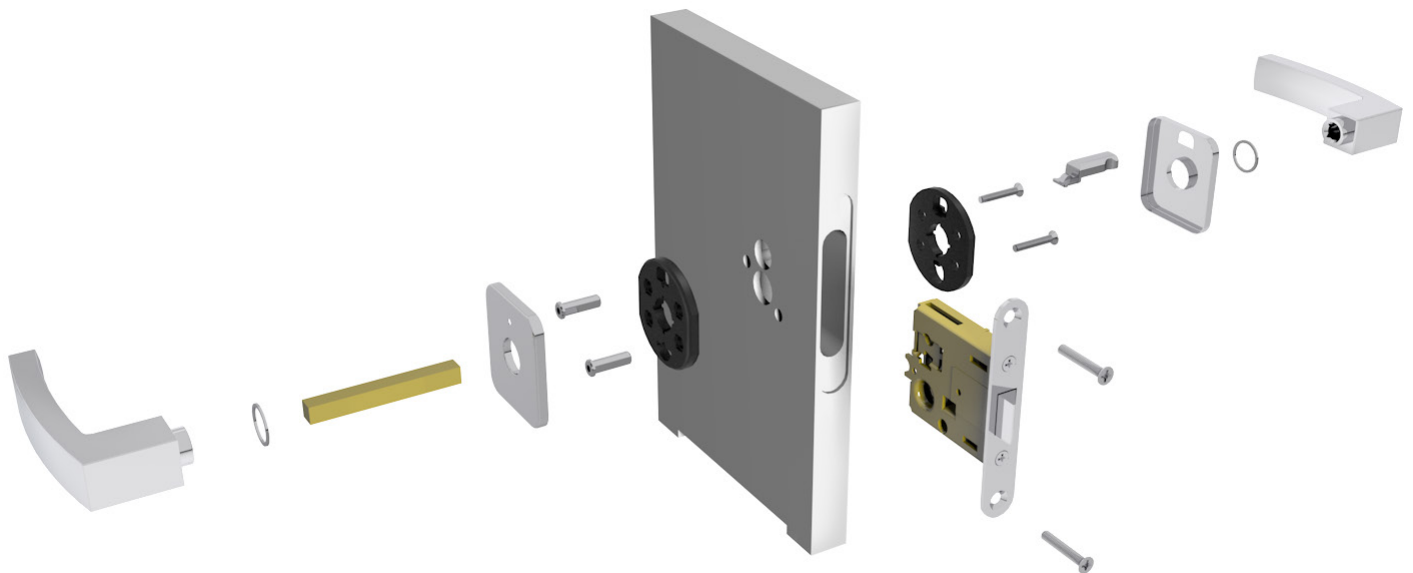

Place the spring for your privacy according to door swing.

Integrated Privacy Function – Seamless & Versatile

Onmar Modern McCoy system features a fully integrated privacy function, designed for maximum flexibility and ease of installation. Thanks to its modular construction, the privacy mechanism can be configured for any swing direction—simply by positioning the privacy button and retaining spring within the lock-case as needed.

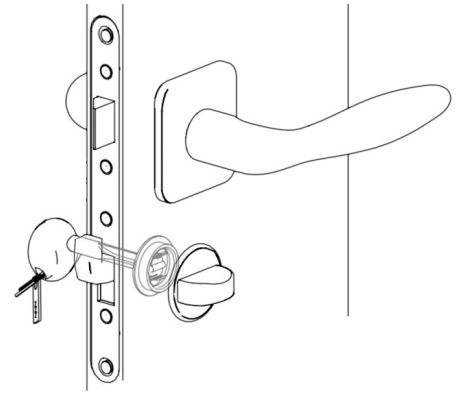

This intelligent design allows for a quick, tool-free adjustment during installation, making it ideal for varied door setups. The result is a robust, reliable solution that maintains the sleek, uninterrupted aesthetics of the Modern McCoy latch, while delivering intuitive and secure privacy control.

Build your Modern McCoy

Onmar Modern McCoy system is built for flexibility, using standardized components and a clear step-by-step configuration process to create the optimal latch for any door. Its modular design supports extended functional and design requirements, including the compatibility with both Onmar's own handles and the majority of Olivari handles for seamless integration and exclusive design.

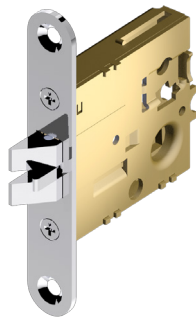

The McCoy lock case is the heart of Modern McCoy. It delivers a unique and superior level of quality. Its refined design and precision engineering gives the end user a distinct sense of luxury with every operation.

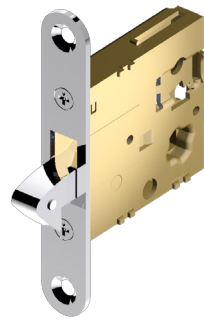

1. Choose lock case depending on door type

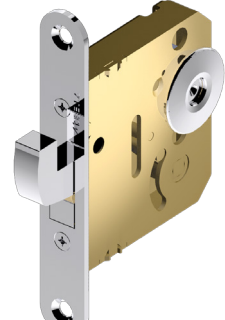

Standard spring bolt

Double spring bolt

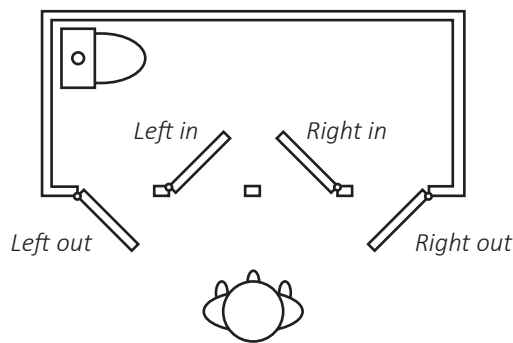

Sliding door

Turn knob + key

OLIVARI

20 YEARS OF COLLABORATION

LOGO L

James Irvine

How to design a handle for a firm of such stature?
I started making sketches, but kept them to myself. In the beginning, they were strange ideas, and looking at them, I wondered if I really wanted to produce a handle like that. To tell the truth, no. Maybe the handle does not always have to play the leading role. Maybe it can be understated.

20 YEARS OF COLLABORATION

PLANET QB

Luca Casini

The Planet was born at a time when the squared handle model had not yet appeared on the market as a protagonist. I was attracted by the idea of creating a linear and seemingly sharp-edged handle that in reality felt soft to the grip, with imperceptibly curved surfaces and an ideal proportion of volumes in terms of aesthetics and functionality.

OLIVARI

20 YEARS OF COLLABORATION

DYNAMIC

Studio Olivari

Dynamic arises from the need to complete the range of products with a linear but expressive model. We have achieved the goal through the elegant movement of the surface stretched around its axis.
